DETAILED ACTION

1. Amendment of claims 1 and 8, and cancellation of claims 2-4 in the amendment filed on January 18, 2005, is acknowledged. Claims 1 and 5-8 are pending in the application.

Responses to Amendment

2. Since limitation "R³, R⁴ and N form a cycle or a heterocycle" has been incorporated into claim 1, therefore, rejection of claims 1 and 5-8 under 35 U.S.C. 112, first paragraph, has been overcome in the amendment filed on January 18, 2005. Since claims 2-4 have been cancelled, therefore, rejection of claims 2-4 under 35 U.S.C. 112, first paragraph or second paragraph, is obviated herein.

3. Since the variable R⁶ of formula (II) only represents hydrogen, therefore, rejection of claims 1 and 5-8 under 35 U.S.C. 102(b), has been overcome in the amendment filed on January 18, 2005. Since claims 2-4 have been cancelled, therefore, rejection of claims 2-4 under 35 U.S.C. 102(b), is obviated herein.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview

with Charles E. Baxley on March 22, 2005. The application has been amended as follows:

In claim 1, line 4, after "II" delete ")," and insert
--R¹ is aryl or alkyl of C1-C9;--

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

Claims 1 and 5-8 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to acylated aminothiols compound. The closest reference is Kang et al. publication, Bulletin of the Korean Chemical Society (1996), 17(12), 1135-1142, see CAS: 126:131036, discloses chiral beta-amino thiol catalysts for the enantioselective addition of diethylzinc to aldehydes. The difference between instant claims and Kang et al. is that the instant compounds of formula (II) are not found in the reference. Suggestion for modification of above reference to obtain the instant compounds, has not been found. Claims 1, 5-8 are allowed.

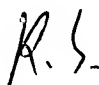

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
